Blast chiller/freezer with touch screen controller

Our blast chiller/freezer range is perfect for quickly cooling or freezing hot food from the stove or oven, preserving the food in a safe way. The BLCA-X comes with an easy-to-use touch screen controller. Here you can choose one of the pre-set programs for different purposes or you can create and save your own programs. Primary programs are pre-set to keep the end temperature fixed until the cabinet is opened and the program is turned off. This method ensures the quality and safe preservation of the food and makes sure the food is safe for storage and later consumption. Cooling capacity is measured from +70 to +3 °C in 90 minutes - Freezing capacity is measured from +70 to -18 °C in 240 minutes. Exact kg capacity for each model can be found under the technical specifications. The BLCA-X accepts both gastronorm 1/1 and euronorm pans (not included).
